Summary

As a results-driven Frontend Developer and Software Engineer with experience at Lucy Teknologi and Emori Creative, I have honed my skills in HTML5, CSS3, JavaScript, TypeScript, Next.js, Vue.js, React.js, Tailwind, and Bootstrap. Additionally, my previous role as a Digital Marketer for six years has provided me with insights into online marketing strategies and tools.

In my Fullstack Developer career, I have led and mentored a team during a bootcamp, which resulted in achieving high scores collectively. As a team leader, I conceptualized and implemented effective strategies to guide and motivate members to excel in their tasks, demonstrating my strong leadership skills and ability to drive team success.

Experience

Frontend Developer

Lucy Teknologi

Jan 2023 - Apr 2023 (4 months)

As a Frontend Developer at this company, I am responsible for rebuilding the company's website. In this capacity, I work closely with the backend team to ensure seamless integration between the frontend and backend components.

To accomplish this task, I use a combination of Vue.js, TailwindCSS, and TypeScript to create an interactive and visually appealing website that aligns with the company's branding guidelines.

Fullstack Web Developer

Emori Creative

Dec 2022 - Present (6 months)

As a Software Engineer at this company, I am responsible for building various websites and landing pages in collaboration with our UI/UX team. In this role, I handle both frontend and backend development.

To accomplish this task, I leverage my expertise in NextJS, TailwindCSS, TypeScript, and JavaScript to develop high-quality, responsive, and visually appealing websites that meet the company's requirements. Additionally, I sometimes utilize WordPress to build websites, depending on the specific project needs.

Business Owner

CV. Borneo Pratama Properti

Feb 2021 - Present (2 years 4 months)

The COVID-19 pandemic and resulting restrictions have impacted many businesses, including mine. However, during this time, I recognized an opportunity in the real estate market, which saw a drastic drop in property prices.

Taking advantage of this situation, I purchased several large plots of land at a discounted price and subdivided them into smaller parcels for sale. While I handle the business operations independently, I have engaged the services of several freelance real estate agents to assist with sales.

Borneocase.id
Jan 2014 - Jun 2022 (8 years 6 months)
Initially, this business operated as a dropshipping model. However, with time, it evolved into an independent distributor and eventually emerged as the largest custom casing business in Kalimantan.

As the digital marketer, I spearheaded several strategies to drive sales through digital marketing channels. As a result, our team grew to comprise six highly-skilled professionals who worked seamlessly to achieve our targets.

Today, BorneoCase is a household name among UMKM in South Kalimantan, cementing our position as a market leader in the region.
